**JACKSON**

**Jackson High** is on the verge of their second straight undefeated regular season and back-to-back Region 4-AAA titles. Allowing only 9 points-per-game, the Red Devils currently have the third best defense in Class AAA. Led by a sizeable group of seniors, the goal this season is a deeper run in the state playoffs.

**MARIETTA**

We visit with the **Kell High Robotics Team**, Georgia's premiere high school robotics program. Programs such as this help support the focus and importance of STEM subjects (Science, Technology, Engineering and Math). The Kell Robotics Team is proving that teamwork extends beyond sports.
